

FOR IMMEDIATE RELEASE:

Signature Systems Group, LLC to Relocate Corporate Headquarters to Dallas, Texas

New York, NY - October 7, 2014 - Signature Systems Group, LLC, the world's largest manufacturer of modular flooring and roadway systems for access and ground protection, announced today that the company will relocate its corporate headquarters from New York City to Flower Mound, Texas, a thriving suburb of Dallas/Fort Worth. The move was spurred by the company's exceptional growth in both domestic and global markets. With offices in New York, Florida, Baltimore, Los Angeles, and now Dallas, Signature will be in an ideal position for further expansion and able to respond dynamically to future changes.

Effective January 5, 2015, this relocation will allow Signature to more effectively reach customers in the special event, oil and gas, stadium, sports, military, and disaster relief industries. In addition to its strategic location, the new facility will provide room for future organizational growth and will feature a 30,000 square foot, state-of-the-art distribution center and product showroom that will allow customers to experience the entire range of Signature products first-hand.

"Our upcoming move provides Signature with a tremendous opportunity for growth and development by enlarging our geographic footprint as we build for the future," said Signature's CEO Seth Gordon. "The brand-new corporate office and distribution facility in Flower Mound will give us improved access to our largest under-served domestic markets in Texas, Oklahoma, and America's heartland. Six of the 17 largest U.S. cities are within a 4-hour drive of our new corporate headquarters, which offers these regions comprehensive local service."

"While we are moving our corporate headquarters to Texas, we are not leaving New York entirely and will maintain regional sales, marketing, and other key personnel here. Our manufacturing and distribution facility in New York will also remain in place and unchanged," Seth Gordon added.

Signature Systems Group, LLC is a worldwide leader in the manufacture of specialty flooring and matting systems. With locations in New York, Los Angeles, Baltimore, Orlando and the UK, Signature supplies products and services to the special event, oil and gas, stadium, sports, military and disaster-relief industries. In 2011, they received the distinctive Presidential "E" Award for Exports from the U.S. Dept of Commerce and have been featured on the Inc 5000 list of fastest-growing privately-held companies for 5 consecutive years. Signature's products are available worldwide directly and through a network of dealers, distributors and agents.
